

PLAS@PAR call for proposals

Workshop Organisation

Context

The Fédération de Recherche Plasmas à Paris (PLAS@PAR) invites applications from its members to support scientific networking and training in plasma physics. This call is dedicated to the organisation of workshops to be held in the **first half of 2027**.

The 'PLAS@PAR Workshops on...' series, are held at Sorbonne Université, on the Pierre et Marie Curie Campus. These workshops aim to foster local networking and training within the federation while remaining open to the wider scientific community.

Eligible Proposals

PLAS@PAR supports the organisation of scientific workshops lasting a maximum of three days.

- All workshops will be held on the Sorbonne Université Pierre et Marie Curie Campus between January and June 2027 (included).
- PLAS@PAR acts as the Local Organising Committee (LOC).
- The federation manages and covers logistical aspects: conference room booking and related expenses, catering (lunches and coffee breaks), webpage creation, and local support (badges, etc.).
- Funding is strictly dedicated to these logistical services.
- The federation does not cover travel, subsistence, or honoraria for speakers and participants.
- Maximum length of proposal: 3 pages.

Evaluation Criteria

- Scientific quality and relevance to the research axes of PLAS@PAR.
- Added value for the PLAS@PAR community (networking, training, visibility).
- Involvement of multiple PLAS@PAR teams and laboratories.
- Feasibility of the proposed dates and justification of the requested duration.

Submission Requirements

Applications must use the "Workshop Organisation" template provided with this call.

- Format: Arial, 11 pt.

- Submission: **Single PDF document.**
- Send to andrea.ciardi@obspm.fr

Timeline

- **Submission Deadline:** 8 October 2026 at midday (12:00).
- **Selection Result:** shortly after the submission deadline.
- **Project Completion:** all workshops must be held and completed by the end of June 2027.

Project Reporting and Acknowledgment

PLAS@PAR support must be explicitly acknowledged in all related scientific communications:
"This work received financial support from the Fédération de Recherche et d'Animation Plasmas à Paris - PLAS@PAR".

A brief final report detailing the scientific outcomes and the community impact must be submitted by the Principal Investigator after the event.
